### Maximum productivity

- Fast cut speeds: three times faster than oxyfuel on 12 mm (1/2") mild steel.
- Superior cut and gouge quality means less time spent on grinding and edge preparation.

### Easy-to-use for cutting and gouging

- Smart Sense™ technology automatically sets correct air pressure based on torch length and operating mode.
- Handheld, straight machine and robotic torches for greater versatility and ease-of-use.
- Wide voltage tolerance improves performance on motor generators and in low-line conditions.
- Improved shield reduces dross buildup and enables smoother drag cutting for a better cut.

### Built and tested to withstand the harshest conditions

- Duramax™ torches are designed for high impact and heat-resistance.
- SpringStart™ technology ensures consistent starting and a more reliable torch.
- Low maintenance for maximum uptime – it keeps on going.

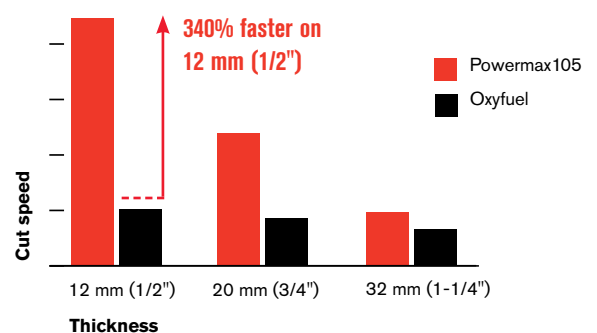

### Low operating cost

- Long consumable life for lower cost and more uptime.
- Exclusive electrode end-of-life detection protects the torch and workpiece from damage by automatically stopping power when the electrode is overused.
- High power efficiency lowers energy consumption.
